PROFILE

Motivated and detail-oriented B.Tech student specializing in Computer Science Engineering (Artificial Intelligence & Machine Learning). Passionate about building secure and efficient software systems, with a strong foundation in Java programming, web technologies, and basic cybersecurity concepts. Eager to apply technical knowledge in real-world projects and continuously enhance professional skills.

EDUCATION

St. Martin's College (2022-2026) - pursuing Bachelor's degree in AIML.
Sri Chaitanya junior college(2020-2022) - Higher Secondary in MPC (80.3%) .
Siddartha High School (2020) -SSC (10 GPA).

EXPERIENCE

Java Intern – Niltech Edu (Remote)

- Built small-scale Java applications using core programming concepts. Gained hands-on experience with loops, arrays, classes, and exception handling.
- Worked on file handling and basic scripting using Java. Collaborated with peers on mini-projects implementing real-time functionalities. Created small utilities and learned automation basics and syntax flexibility.

PROJECTS

Prediction of SQL Injection Attacks in Web Applications

- Developed a Java-based prototype to detect and prevent SQL injection vulnerabilities in web applications.
- Implemented secure input validation and query handling mechanisms. Performed testing and debugging to ensure protection against malicious inputs.
- Gained practical exposure to cybersecurity principles and web application architecture.

SKILLS

- Programming Languages: Java, Python
- Web Technologies: HTML
- Tools & Platforms: VS Code, Microsoft Office (Word, Excel, PowerPoint)
- Design & Editing Tools: Adobe Photoshop

CORE STRENGTHS

- Strong communication
- skills Teamwork and collaboration
- Self-disciplined and responsible
- Quick learner
- Creative thinker

HOBBIES & INTERESTS

- Photography and editing
- Fitness and healthy lifestyle
- Reading self-improvement book
